Art Unit: 2872

1. The reply filed on 01/22/2007 is not fully responsive to the prior Office Action because of the following omission(s) or matter(s): Applicant failed to indicate which of the newly added claims are deemed to be readable upon the elected species (see MPEP 809.02(a)) and/or inventions. In addition, it would appear to the examiner that newly submitted claims 50-54 are drawn to an invention that is independent or distinct from the invention originally claimed due to the fact that the newly submitted claims recite that the base includes a mounting post and the mirror system includes a frame which were never actually/specifically claimed by the original invention. Applicant should be advised, inventions in the same statutory class are considered mutually exclusive, or not overlapping in scope, if a first (originally claimed) invention would not infringe a second (newly submitted) invention, and the second (newly submitted) invention would not infringe the first (originally claimed) invention, which would appear to be the case with the newly submitted claims 50-54. Accordingly, should applicant consider such inventions or species not patentably distinct, applicant is further required in response to this communication to submit such evidence or identify such evidence now of record showing that the inventions or species to be obvious variants or clearly admit on the record that this is the case. See 37 CFR 1.111. Since the above-mentioned reply appears to be *bona fide*, applicant is given **ONE (1) MONTH or THIRTY (30) DAYS** from the mailing date of this notice, whichever is longer, within which to supply the omission or correction in order to avoid abandonment.

EXTENSIONS OF THIS TIME PERIOD MAY BE GRANTED UNDER 37 CFR 1.136(a).

2. Any inquiry concerning this communication or earlier communications from the examiner should be directed to Ricky D. Shafer whose telephone number is (571) 272-2320.
